INFORMATION

The Scottsdale Unified School District (SUSD) Foundation is an emerging advocate and funding 501(c)3 organization whose mission is to enhance our children's educational experiences in the areas of science, technology and creativity. As partners with the school district and other education-based organizations, we can optimally prepare today's youth for tomorrow's challenges.

Our goal is to make a difference funding programs, equipment and resources in our core focus areas which will impact Scottsdale schools and the district overall. To help the children have the best possible educational experience – and we want to work together with our community and partner with businesses, civic organizations and the city to further our mission.

AWARENESS CAMPAIGN

Our Awareness Campaign started in September 2006 with a letter going home to every family in the District. This was our first effort in communicating to SUSD families our mission and our goal to make sure all families are aware of the Foundation and its efforts.

The Awareness Campaign helped us get started with generous donations from over 200 SUSD families. Letters were then distributed to all SUSD employees by the end of February 2007. If you would like to make a donation please go to our web site for more information.
