State	70700	53	70812	57	70335	53

The Median National Percentile (MDNP) is the score that divides the distribution in half. If the Median National Percentile for a group was 78, for example, that would mean that half of the National Percentile scores were above 78 and the other half were below 78. The Median National Percentile for the nation is 50.
