STRATEGIC

PLAN

Scottsdale Unified School District
Student achievement and academic success are at the heart of everything we do in the Scottsdale Unified School District. This is where we inspire students to learn and, ultimately, lead. It is that expectation that informs this strategic plan and our initiatives going forward.

The journey to becoming a world-class, future-focused school district requires an ambitious and clear strategic plan. This is that plan, which builds on our 125-year legacy of success and positions us to usher in another century of educational excellence.

Our planning began in February 2021. That’s when, while still navigating challenges posed by the global coronavirus pandemic, more than three dozen stakeholders met virtually, shared what mattered most to them, and later gathered in person to approve the agreed-upon SUSD Vision, Mission, and Values.

The second phase of the planning process produced five goal areas with specific commitments designed to ensure we achieve our vision of engaging all students in world-class, future-focused learning. These goals and commitments provide the framework for how SUSD will act to create a robust and compelling educational agenda focused on the success of each and every student in our district.

The final phase of the planning process resulted in identifying specific initiatives that will help us move from planning to implementation. Additionally, it was important to identify Key Performance Indicators (KPIs) that will ensure accountability and reflect the extent to which we are successful in achieving the goals set forth in the strategic plan. This plan is, first and foremost, a testament to our focus on teaching and learning. By setting the standard as world-class, the members of the Scottsdale community have made it clear that we will not settle for “good enough.” Our children deserve every opportunity to realize their full potential, and this plan is designed with that in mind.

Many thanks to the members of our Strategic Planning Committee in each of the three phases. This 16-month process required the time, talent, and attention of many, and will inspire a lasting, positive community impact for generations to come.

To fulfill our mission, live our values, and achieve our goals, we must identify and implement strategic initiatives. Strategic initiatives are the means through which an organization translates its goals and vision into practice. Each initiative requires a comprehensive plan, a road map to success, uniting people in an organization around the same objective. High-performing Initiative Implementation Teams collectively work towards achieving corresponding goals and commitments.

### IMPLEMENTING INITIATIVES

- Develop & Communicate a Shared Vision of the Change
- Establish a Plan of Action & Provide Resources
- Invest in Professional Learning
- Monitor Progress Throughout Implementation
- Provide Continuous Assistance
- Create a Context Supportive of Change
The students are our “why.” This strategic plan is our “how.”

After months of listening and learning, elevating the voices of all stakeholders, and reaching consensus regarding who we are and where we want to go, now the real work begins.

This strategic plan’s legacy, honoring all those who participated in the planning process, rests squarely with our initiative teams that will work to encourage and empower employee groups across all 29 campuses, one online school, and many district sites to fulfill our vision of engaging all students in world-class, future-focused learning.

We look forward to the initiative’s moving from initial implementation to sustained results. This plan will be the engine that continues to drive this district and inspire even greater academic gains and opportunities for our students.

Key Performance Indicators (KPIs) will be reported to the Governing Board. We look forward to putting in the work and realizing our collective potential through the successes of our students and staff alike.

Thank you for choosing us. This plan is for you, that is the person who chooses to work here as much as the family that chooses to enroll their children here. We dedicate ourselves to this plan, this community, and this mission to *inspire, motivate, and empower all to think critically, act collaboratively, and embrace diversity for a life of intellectual exploration, community engagement, and personal growth.*

I came in thinking I had all the answers, but soon realized that all the perspectives and discussions together produced the most valuable outcomes.
