

9/15/14

From the University of Arizona Undergraduate Admissions Office:

UA's SALT Center application is available now! Students can find the application [here](#). The **SALT Center** is an academic support program that provides a comprehensive range of services to UA students with learning or attention differences. It is truly a one of a kind program and is the most comprehensive center in the nation for students with learning or attention differences. The SALT Center facilitates learning, self-advocacy, and independence by encouraging students to take ownership of their education through a range of academic support services.

This program does have a limited number of spots, so be sure interested students complete their UA application and then complete the SALT Center application. Students should apply to SALT immediately following the completion of their UA application. **March 1st** is the priority application date for SALT.
