A BULLETIN FOR ALL SUSD PARENTS, GUARDIANS & TEACHERS

- FACT!** E-cigarettes are harmful! They can contain toxic chemicals, affect brain development and cause unintended injury from defective batteries.
- FACT!** Nicotine in e-cigarettes can harm brain development and lead to addiction.
- FACT!** Parents should learn to recognize e-cigarettes, look for signs & know the risks of vaping. Talk to their child by expressing firm expectations of being tobacco-free.
- FACT!** Teachers should learn to recognize e-cigarettes, look for signs of vaping and report vaping to school administration.
- FACT!** Scottsdale Unified School District has severe consequences for students caught vaping which can include required participation in a diversion program, suspension and expulsion. We fully cooperate with local law enforcement which may result in additional consequences.
- FACT!** The Arizona Department of Health Services has a website dedicated to helping adults talk to minors about the dangers of vaping. Learn more.
