

October 20, 2021

Hello, SUSD Families -

We hope you had a great fall break!

In our continuing effort to contribute to our community's health, SUSD will sponsor voluntary vaccination events in each of our learning communities over the next week. These events are open to you and your family members, including your age-eligible students, as well as SUSD staff and their families.

The first two – at Arcadia and Desert Mountain High schools – take place this Friday, October 22, from 3 – 6:30 p.m. The remaining three – at Coronado and Chaparral High schools and the Mohave District Annex – take place a week from Friday, on October 29, also from 3 – 6:30 p.m.

These events will offer booster shots of the Pfizer vaccine, as well as first and second shots of the Pfizer and Moderna vaccines and single doses of the Johnson & Johnson/Janssen (J&J) vaccine.

Everything you need to know and all the links to sign up for the voluntary event of your choice and convenience are in the flyer attached below.

We would also like to remind you that drive-thru, COVID-19 surveillance and diagnostic testing sites are operating at Cherokee Elementary School, 8801 N. 56th St., Paradise Valley, and in the Navajo Elementary School neighborhood at Open Arms Church, 4640 N. Granite Reef Rd., Scottsdale, for all SUSD families and district employees. This testing partnership with In Office Diagnostics is offered at no out-of-pocket cost to families or the district. Testing is completely voluntary. Both locations are open Monday through Friday from 7:30 a.m. to 5 p.m. Read more about the program [here](#).

Questions? SUSD COVID Specialist [Whitney Jennings](#) can help.

Thank you,

Scottsdale Unified School District
