What SUSD Students Are Saying!

"I thought the format and layout of the course was very efficient and easy to use. I liked how I was able to return to an assignment at a later time, it was all at my own pace. I loved the videos, I could go back and re-watch all of them if I needed to, instead of reading from some old textbook and forgetting what the teacher went over. It is really helpful how the teacher can help you & all you have to do is schedule a time." ~Arcadia Student

"I enjoyed this semester in Economics. I liked learning about the Federal Reserve and its affect on our economy. I liked learning about famous entrepreneurs and their journeys. I am very appreciative of the help that my teacher provided me with this semester whenever I struggled understanding a concept. Thank you for a great semester!" ~Scottsdale Online Learning Student

The content of the course was detailed and easy to follow. The assignments were engaging and good at teaching the concepts. Assessments had a good mix of written and multiple choice questions that tested the knowledge well. My teacher was good at communicating on each assignment and at the end of each module." ~Saguaro Student

"I felt that this course fully highlighted the various aspects of health, physical, mental, and emotional. The lessons were concise, well timed, and informative. The knowledge presented on healthy lifestyles was important and valuable. The portion on relationships and self-esteem is particularly vital in the current age of the internet and media. I found the lessons to be well-rounded, unbiased, and realistic." ~Desert Mountain Student

"Finance is one of the more interesting subjects under the math category, so I found it much more enjoyable than most all other math classes I have been in. The assessments were not too hard or too easy, so it didn’t feel like a chore every time I logged onto this class. I would like to add that I would recommend this class to anyone that is even a little interested in finance. Most math classes I finished, I don’t feel like I’ll use the knowledge after school, with this class here I believe I will." ~Arcadia Student

"The semester of this English I course has been one of the most organized and planned out courses I have ever taken. The content was clear and laid out in an easy to understand manner. I made sure I understood the material that was taught in each section in order to keep pace throughout the class with a good grade." ~Chaparral Student

"I benefitted by taking online Algebra 2 over taking it in the classroom because I was able to manage my time better. There was nothing on the assessments that wasn’t covered in the modules. I prefer this learning method over sitting in a classroom. Overall, if I had the chance to do it all over again I would definitely take the online method." ~Chaparral Student

"I thought the course was very informational and interesting. The format of this course was very well laid out, and smooth. I liked how sometimes I would have a quiz or in other cases a little assignment, that helped mixed it up a bit. I also thought that the travel journals were a big help, because whatever I wrote down usually was on the quiz." ~Coronado Student

"You have amazing staff members on your team!" ~Desert Mountain Student
