Concrete improvement at Ingleside
A fresh coat of paint for the new stage floor at Saguaro HS
As the Director of Building Services I could not be more proud of the efforts that the Building Services Team puts forward each and every day. From our Facility Service Workers and Facility Coordinators at the campuses to our Admin Staff and Supervisors at Building Services, to all of our HVAC techs, Carpenters, Electricians, Plumbers, Painters, Locksmiths, Special Systems Techs, Grounds Maintenance, Grounds Teams and Irrigation Techs...

Someone once said “It takes a village... “ I can tell you that it takes a small army of dedicated personnel to keep our Scottsdale Schools safe and ready for our Students, Teachers, and Community.
