

## **Strategic Plan Design Team Meeting Summary** January 5, 2022

To begin the January 5<sup>th</sup> session, Design Team members engaged in a warm-up activity focused on the strategic goals and commitments that were established during the previous session. They next completed a questionnaire individually where they provided feedback on the quality of the commitments for each goal area.

For their next step, the Design Team broke into smaller goal groups and revised the commitments for each goal, using the feedback from the questionnaire. These strategic goals and commitments will be presented to the Governing Board for approval.

During the January 5<sup>th</sup> session, the Design Team also continued working on key performance Indicators (KPIs) for each commitment. Some of the groups were also able to work on action plans to ensure that strategic goals and commitments are implemented and sustained.
