About The Film.

No Letting Go is a dramatic, independent feature film based on the real-life story of producer and co-writer Randi Silverman and her family.

Determined to give voice to the millions of families who suffer alone and in silence, Randi used her own very personal experiences raising a young child who was diagnosed with a mental health disorder to create true to life characters, scenes, and dialogue that honestly reflect the struggles so many families face.

No Letting Go was made to shine a light on the devastating impacts of untreated childhood mental health disorders in an effort to create community conversations, end the silence caused by blame and shame, build awareness and understanding, and let families know they are not alone.

The Youth Mental Health Project, a nonprofit 501(C)(3) organization, whose mission is to educate, empower, and support families and communities to better understand and care for the mental health of our youth.
