**Can a student take more than one class at a time?**

It is recommended that students take only one online class per session (each session is one semester's worth of material in a three week time frame). The work load is high and we want to ensure that students are successful. The classroom sessions are just one (1) class per session.

**When are final exams?**

Online finals: exams must be taken in-person in a computer lab on one of the high school campuses. All finals must be taken before the last day of the session.
