

Career & Technical Education

Finance

DESCRIPTION:

Students seeking a broad view of business practices should consider Business 101 and 102. From personal finance and investing to economics, students will learn the importance of money management. Topics include taxes, checking accounts, banking, managing credit effectively and financial consequences of debt, risk management and investments. Students will learn how global companies, such as Apple, Google and Facebook, impact the economy. Teenagers spend billions of dollars annually. How are you spending your money?

SITES:

Arcadia / Coronado / Chaparral / Desert Mountain
