

Career & Technical Education

Technical Theater

DESCRIPTION:

There are many skilled professionals that make a theatrical production happen and it's not just the actors on the stage. Our technical theater program offers students training in the following backstage specialties: set construction, lights, sound, props, costumes, makeup, stage management and artistic design. Students apply their skills in school productions and performances throughout the school year.

SITES:

Arcadia / Chaparral / Coronado / Desert Mountain / Saguaro
