

Career & Technical Education

Sports Medicine

DESCRIPTION:

Students with an interest in the healthcare field can begin their training within the Sports Medicine program. Students focus their learning on anatomy, kinesiology and physiology of the human body. By having an understanding of these key systems, students are able to apply their knowledge and skills to common athletic injuries. Students completing the Sports Medicine pathway have a solid foundation in common healthcare terminology, practices and systems. This pathway is excellent for any learner that wishes to pursue a career in the medical field.
