

December 16, 2021

Good morning, SUSD Families,

It has come to our attention that there is a national TikTok challenge going around on social media regarding potential threats to schools on December 17, 2021. These posts appear to be generic and are being posted nationwide.

We are in constant contact with our local law enforcement partners, who inform us these are NOT credible threats; however, you may notice an increased police presence on and around our campuses today and tomorrow.

This is another opportunity to remind your students of the importance of making good choices, especially as it relates to what they see and share on social media.

Scottsdale Unified School District takes all threats seriously. The safety of our students and staff is our number one priority.

Thank you!

Scottsdale Unified School District Leadership
